

# How To Build a Roman Villa - The Weird and Wonderful Romans at Priors Hall, Corby

Thursday 25 November @ 8pm

By: Paddy Lambert

*An Online Zoom talk from the Marlow  
Archaeology Group*

This talk presents the preliminary results of the nationally significant archaeological excavations undertaken by Oxford Archaeology East on the estate of a large Roman villa in Northamptonshire. The incredible well-preserved remains included a Romano-British building site, a temple-mausoleum converted to a tile factory, pottery and lime manufacture and much more. It ranks amongst the most exciting and important Late Romano-British archaeology encountered from Roman Britain
